- Landscaped environment
- Parking spots

UNITS

- 2 * 5200 sqm logistical halls
- Office area: 100 sqm, which can be constructed on the gallery of the buildings

MetLog Alba is located near main road 8, about 5 kilometers from the town. The property can be reached via main road 8 and 81, and scheduled buses from Székesfehérvár.

The enclosed lot houses two halls with one airspace and 5200 square meters area each. If needed, 100 square meters of office space can be constructed on the gal-

lery of the halls. The room height of the buildings is 7 – 7,4 meters, floor encumbrance is 5 tons/sqm.

Both buildings have 8–8 truck cradles each, and are equipped with water, gas, electrical, sewage and fire-extinguishing utilities.
